SUMMARY

Full Stack Developer skilled in React.js, Next.js, Node.js, Firebase, and PostgreSQL. Experienced in building responsive and user-friendly web applications with smooth frontend-backend integration. Proficient in leveraging AI tools like Vercel v0, Cursor, Copilot, and ChatGPT to accelerate development and enhance code quality. Develops full stack applications using self-written logic while utilizing AI-assisted tools to maintain clean architecture and boost productivity

INTERNSHIPS & EXPERIENCE

Software Intern – Chisel Yourself (Startup)

Remote (Registered Office: TIDEL Park, Chennai) | Dec 2024 – Jun 2025

[Internship Completion certificate - Link](#)

- Contributed to the development of live web applications using Next.js, Nest.js, and PostgreSQL with prisma orm.
 - Worked in a startup environment under remote conditions, collaborating via online tools.
 - Attended daily team sync-ups, submitted reports, and gained exposure to task ownership and communication in a distributed team.
 - Strengthened skills in project coordination, time management, and adaptability—valuable for team management roles.
-

FREELANCE / BUSINESS LEVEL PROJECTS

Production-Level Project – Drop You Taxi - [Website Link](#)

Dec 2024

- Designed and developed a full-stack cab booking website for a live company, currently in production.
- Built the frontend with Next.js, ensuring a clean, responsive, and user-friendly interface.
- Implemented backend using Nest.js with PostgreSQL as the database for efficient data handling.
- Focused on scalability, usability, and performance optimization for real-world usage.
- Successfully deployed at www.dropyoutaxi.com, serving as the company's active booking platform.

She Software Solutions - Professional Website (Freelance project)- [Website Link](#)

Aug 2025

- Built and deployed a modern, responsive business website for a women-led IT service company using Next.js 14, TypeScript, and Tailwind CSS. The platform highlights services, internship programs, and includes contact automation, with seamless deployment on Vercel and live domain integration.
-

PROJECTS

AI-Powered Train Booking System - [Demo Link](#)

(Present) Sept 2025

- Developed a full-stack web application using React.js frontend and FastAPI backend with SQLite database, featuring voice-enabled booking interface, JWT authentication, and real-time chat bot integration for seamless ticket reservation and management.
- Implemented IRCTC-style waiting list management with auto-confirmation, NLP-powered conversation flow, email OTP verification, and comprehensive booking status tracking including cancellation and refund processing.

Aura de Style - a modern e-commerce platform for kurti - [Link](#) (Present) Sept 2025

- Developed a full-stack e-commerce platform for traditional Indian women's clothing using Next.js, TypeScript, and Tailwind CSS with comprehensive product catalog, user authentication, and shopping cart functionality.
- Implemented responsive design with modern UI components, product filtering, collections management, and integrated payment processing for seamless customer experience.

Full Stack Development - Static Website - [Website Link](#) Aug 2024

- Manage website design and development
- It is a static website Tech stack - Html ,css, js, node.js , mongodb.
- Hosted in Netlify

Designed a ChatBot (UI Design) - [Project Link](#) Jul 2024

- Designed an intuitive chatbot interface using Figma, focusing on user-centric design and seamless interactions.
- Created wireframes and prototypes for a chatbot UI, ensuring a visually appealing and user-friendly experience.
